Dixon, IL – The Illinois Department of Transportation announces today that construction work on 21st Street in Moline east of I-74 will begin on Monday, June 8, 2015. Valley Construction will be working on two building demolition contracts to remove several vacant buildings between 5th Avenue and 7th Avenue.

The two projects, totaling \$291,000, will be removing seven structures that need to be removed for the future contract to build the new I-74 bridge over the Mississippi River. The work is scheduled to be completed by the end of July.

While most of the projects can be completed with minimal interruption to traffic flow in the area, 21st Street will be closed between 5th Avenue and 7th Avenue for several days when the sanitary sewers under the street are removed and filled. Drivers on 21st Street should be alert for flaggers and lane closures as construction vehicles are loaded to haul away the debris from the building demolitions.

Please slow down and use extreme caution while driving through all work zones.
